REPORT ON MoU INITIATIVES BY THE INSTITUTION–INDUSTRY CELL (IIC) 2026–27

Name of the Committee: Institution–Industry Cell (IIC)
Academic Year: 2026–27
Date: 07-07-2026
Submitted to: The Principal

1. Introduction

The Institution–Industry Cell (IIC) initiated Memoranda of Understanding (MoUs) with industry and professional organizations to strengthen industry–academia collaboration and enhance students' employability, practical knowledge, and professional competencies. These initiatives aim to bridge the gap between academic learning and industry requirements by providing students with opportunities for skill development, career guidance, professional training, and industry exposure.

As part of these efforts, the Cell initiated collaboration with the following organizations.

2. Details of MoU Initiatives

1. Tally Institute of Learning

The Institution–Industry Cell initiated an MoU with **Tally Institute of Learning** to explore opportunities for enhancing students' accounting, financial management, and computerized accounting skills.

Expected benefits:

- Practical exposure to computerized accounting.
- Development of industry-relevant accounting and financial skills.
- Opportunities for software training and certification, subject to the terms of the MoU.
- Improved employability in accounting, finance, and business-related fields.

2. BEAT Centre of Excellence

The Institution–Industry Cell initiated an MoU with **BEAT Centre of Excellence** to explore opportunities for skill development, professional training, and industry-oriented learning.

Expected benefits:

- Enhanced practical and professional skills.
- Exposure to industry expectations and workplace requirements.
- Opportunities for training and capacity-building programmes.
- Improved career preparedness and professional confidence.

3. Building Education and Minds International LLP

The Institution–Industry Cell also initiated an MoU with **Building Education and Minds International LLP** to explore collaboration in education, professional development, and career-oriented support.

Expected benefits:

- Career awareness and professional guidance.
- Opportunities for educational and skill-development initiatives.
- Improved awareness of further education and career pathways.
- Support for students' academic and professional development.

3. Role of the Institution–Industry Cell

The Institution–Industry Cell plays a coordinating role in identifying suitable organizations, initiating partnerships, facilitating communication, and exploring mutually beneficial areas of cooperation. The Cell will also coordinate the implementation of agreed activities, encourage student participation, and maintain the necessary documentation and reports.

4. Outcomes and Expected Impact

The MoU initiatives are expected to contribute to:

- Strengthening industry–academia relationships.
- Promoting practical and experiential learning.
- Enhancing students' technical, professional, and employability skills.
- Creating opportunities for training, workshops, and expert interactions.
- Improving students' awareness of career opportunities and industry expectations.
- Supporting the institution's commitment to quality education and career-oriented learning.

5. Conclusion

The initiatives undertaken by the Institution–Industry Cell to establish collaborations with Tally Institute of Learning, BEAT Centre of Excellence, and Building Education and Minds International LLP represent an important step towards strengthening institutional engagement with external organizations. These partnerships are intended to complement classroom learning with practical exposure and professional development opportunities.
